

# GM3188/GM3688

Built for the Tough

**Heat, dust and noise...** laying foundations and constructing buildings are tough work. To communicate effectively with your co-workers, you need a radio as tough as you are. The Motorola GM3188 & GM3688 mobiles are the solution to a robust communications system. They have no problems enduring dust, vibration and water spray. Front facing speaker and Motorola's voice compression technology provide loud, crisp audio, comfortably clear even in high-noise environments. Big buttons for easy operation with gloved hands - Motorola carefully considers the smallest details that will enhance your productivity. The Motorola GM3188 & GM3688 - your rugged partners.

A harsh working environment demands an equally tough communications system. Motorola's specially designed accessories pay particular consideration to the smallest details, to ensure optimal effectiveness and durability. From external speakers to ruggedised microphones, Motorola puts itself in your shoes when designing the product.

# Built for the Tough

## GM3188 & GM3688

### HANDS-FREE ACCESSORIES

Push-button with Remote PTT

Part Number: RLN4857

Standard PTT button with double-sided adhesive tape device for convenient and flexible mounting on steering wheels or gearshifts. Can also be held in the hand for easy access.

Push-button with Remote PTT  
RLN4857

Gooseneck Microphone PTT

Part Number: GMMN4065

Small and discreet, this omni-directional microphone can be easily mounted on the dashboard and other places. Allows Voice Operated Transmission (VOX) capability which enables hands-free operation.

Remote Footswitch PTT  
RLN4856

Remote Footswitch PTT

Part Number: RLN4856

The foot-operated switch offers a complete hands-free solution to ensure driver concentration.

External Speaker 13W  
RSN4001

### EXTERNAL SPEAKERS

External Speaker 13 Watts

Part Number: RSN4001

Ideal for receiving voice transmission in extremely noisy environments. Engineered to provide optimal audio performance for the mobiles.

Heavy-Duty Microphone  
HMN1035

### MICROPHONES

Heavy-Duty Microphone

Part Number: HMN1035

A durable, ruggedised palm microphone specially designed for heavy duty use.

Keypad Microphone  
RMN5029

Keypad Microphone

Part Number: RMN5029

A full keypad enables remote DTMF dialing. 3 programmable buttons to access most frequently used functions.

### KEY ATTRIBUTES AND FEATURES

#### Ruggedness

"It is tough enough for me."

Durable and rugged construction meets MIL-STD 810C, D, E and F for shock and vibration. Dust and water spray resistant, meeting IP54 standards.

#### Clear and Loud Audio

"I need to hear my co-workers above this noise! This powerful 4W front facing speaker really help."

Crystal-clear and powerful audio is ensured with Motorola's audio enhancement technology. 13W external speakers are available for extremely noisy environments.

#### Personal and Co-Worker Safety

"I feel secure with my GM3188/GM3688 radio, knowing that I can easily call for help in the event of an accident." MDC1200  
Emergency feature enables distress calls to be made at a press of the footswitch.

#### Public Telephone Access

"Hey, I can use the GM3188/GM3688 like a telephone and talk to my suppliers!"

With a keypad microphone and suitably-equipped repeaters, the GM3188 & GM3688 can reach people on their telephones.

#### Ease of Use

"It is so quick and easy to operate this radio. I can even pre-set my favourite settings!"

Large On/Off knob and channel buttons offer easy operation, even with gloved hands. Programmable buttons allow fast access to frequently-used functions, and LED indicators show operation status at a glance.

GM3688's large display with icons allow quick identifications of radio status and incoming calls.
